Step By Step Guide

Now that you know what makes a great resume, it is time to make one for yourself. Either, you can download and use any of the templates below or make one using Internshala Online Resume Maker as explained in the video.

1. Template 1 (/uploads/course_images/finishing_school/v2/Resume_Template_1.zip)
2. Template 2 (/uploads/course_images/finishing_school/v2/Resume_Template_2.zip)
3. Template 3 (/uploads/course_images/finishing_school/v2/Resume_Template_3.zip)

TIP

In a resume, content matters more than the template and hence do not spend hours on internet looking for the perfect template. For most of the roles (except may be Design), a simple and neat template is as good as any other.

Creative Resume

While some of the roles (say Graphic Design) expect some creativity in resume making; for many other roles, it can help you stand out from the crowd. The key is to be original and *really* creative. If you are ready to put in the hard work it takes and can pull it off - it can do wonders!

Check some of the creative resumes we have come across below:

- A stunning resume that resulted in interviews with Airbnb, Uber, and LinkedIn (<http://www.nina4airbnb.com/>)
- Sumukh Mehta's Resume (<http://nextshark.com/sumukh-mehta-gq-resume/>)
